Final year Creative Computing student with experience designing and developing tools that communicate complex ideas in intuitive ways. Strong foundation in front-end development, data analysis and user-centred design, with practical experience in research, prototyping, and implementation. Seeking opportunities to further develop and apply skills in product thinking, interaction design, and front-end development within a collaborative design-focused environment.

EDUCATION

BSC CREATIVE COMPUTING (2023 - PRESENT) - UNIVERSITY OF THE ARTS LONDON
GCSE & A-LEVEL (2020 - 2022) - ST KILLIAN'S COLLEGE

SKILLS

Technical: HTML, CSS, JavaScript; Python; React; Tailwind; D3.js; Pandas
Design & UX: Wireframing & Prototyping (Figma); User-centerd design; Responsive UI design
Tools: Git; Notion; Microsoft 365
Professional: Team collaboration; Communication; Problem solving
Languages: English; Romanian; Spanish

PROFESSIONAL EXPERIENCE

Team Lead, Cubble **July 2025**
- Led a multidisciplinary team of 8 across development and UI/UX, coordinating tasks to ensure timely delivery.
- Oversaw the design-to-development process, aligning user needs with technical implementation.
- Delegated tasks across the team and facilitated collaboration between designers and developers.
- Produced functional specifications and supporting documentation to define requirements, scope, and user flows.

Administrative Assistant, Norstella **June 2024 - March 2025**
- Supported 200+ platform users, ensuring consistent engagement by monitoring activity and usage patterns.
- Improved clarity of user-facing training documentation to enhance accesibility and usability.
- Contributed to a cross-functional Hackathon team to evaluate user feedback and propose workflow improvements.

Customer Service Officer, Ulster Bank **August 2022 - June 2023**
- Managed 100+ customer form submissions per week, ensuring accurate data handling during a large-scale banking transition
- Managed the end-to-end account switching workflow and improved speed and consistency.
- Resolved complex customer queries and escalations via phone, providing timely solutions and following up to ensure resolution.

EXTRACURRICULAR 2020 - 2024

Datahon Lead (UAL CCI) - Delivered a Figma workshop to 30+ participants, providing hands-on support and solving multiple technical queries during the session.

Product Design (Springpod) - Explored user centred design methodologies, prototyping, and iterative testing processes.

Student Ambassador (UAL CCI) - Communicated academic processes clearly to prospective students and managed registration to ensure the seamless execution of tour operations.
